DeLisi Fitzgerald Inc. announces that John T. Wojdak, P.E. has joined the planning and civil engineering firm as vice president of engineering.

Wojdak has more than 14 years experience in engineering services as a consultant for both private and public sector clients and a project manager for a commercial development company. Prior to joining DeLisi Fitzgerald, Wojdak served as the engineer of record for the utility corridor serving Southwest Florida International Airport's new Aircraft Rescue and Fire Fighting Facility, master planning of the Children's Hospital of Southwest Florida and the Allied Health Sciences building at Edison State College, Collier County campus.

"We are extremely fortunate to have John on our team," said President Andrew Fitzgerald, P.E. "He has designed, engineered and managed a variety of challenging and unique projects, and his knowledge in both the private and public sector will strengthen our ability to meet the needs of our clients."

Wojdak is a graduate of Leadership Lee County, earned a bachelor of science degree at the University of Delaware and is licensed as a professional engineer in the State of Florida.

DeLisi Fitzgerald Inc. is a multiservice consulting firm with specialties in land use planning and civil engineering. Its principals, Daniel DeLisi and Andrew Fitzgerald, have more than 25 combined years of planning and engineering experience in the Southwest Florida market. DeLisi Fitzgerald's engineers and planners serve a diverse client base that includes local governmental agencies and nonprofit organizations as well as private developers and agricultural interests throughout the State of Florida. DeLisi Fitzgerald's entitlement, design, permitting and project management work includes planning and civil engineering for projects that range in size from small urban infill redevelopment to large master-planned, mixed-use communities and Developments of Regional Impact.
